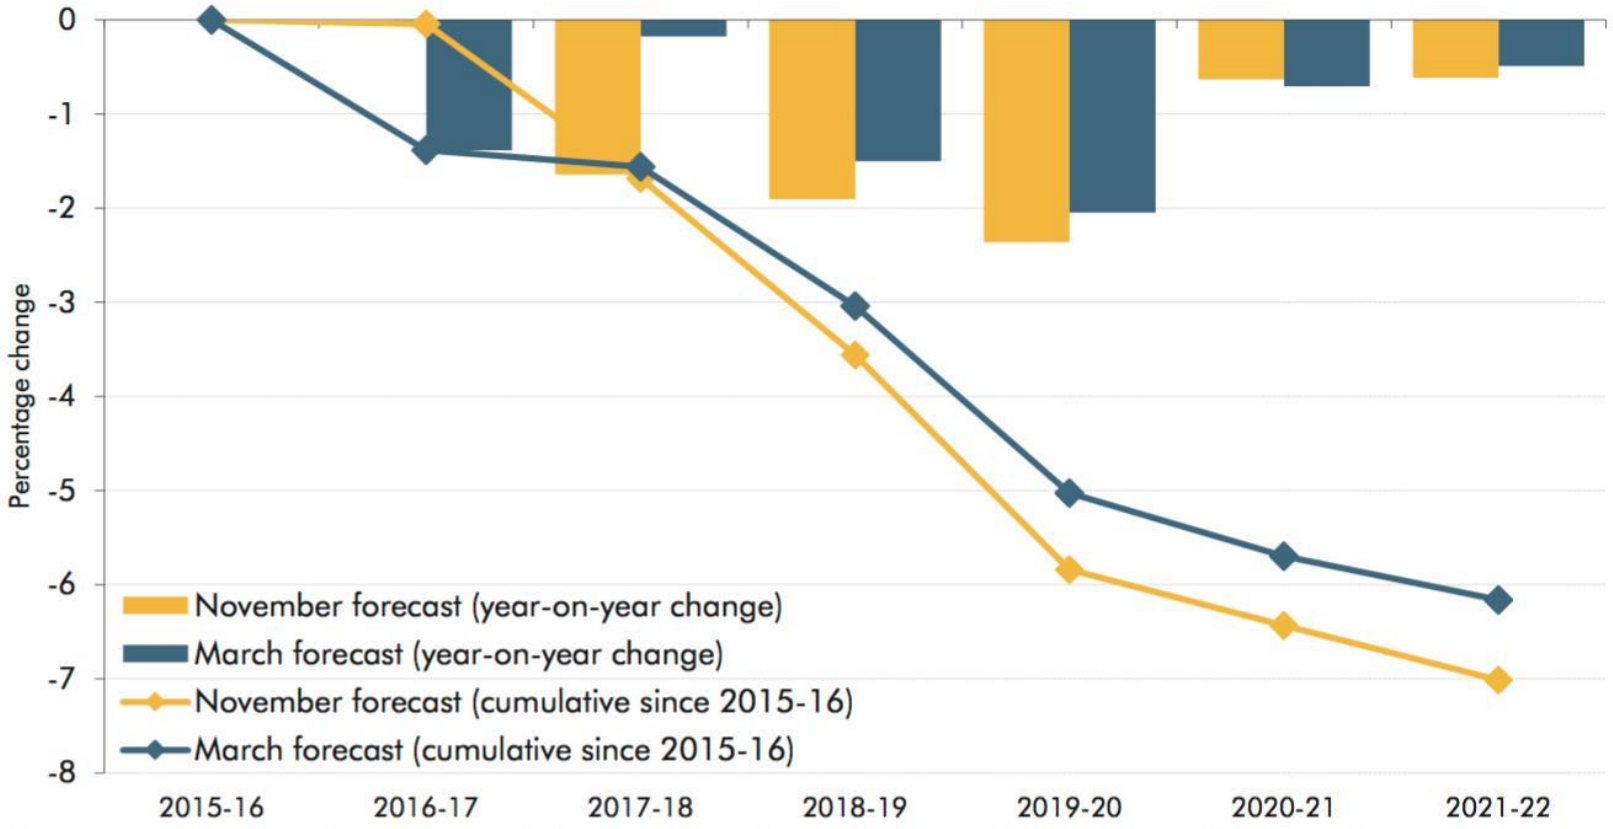
Chart 4.6: Change in real RDEL spending per capita from 2015-16



Note: The chart has been adjusted to remove the reduction in RDEL in 2017-18 and 2018-19 due to 100 per cent business rates retention pilots.

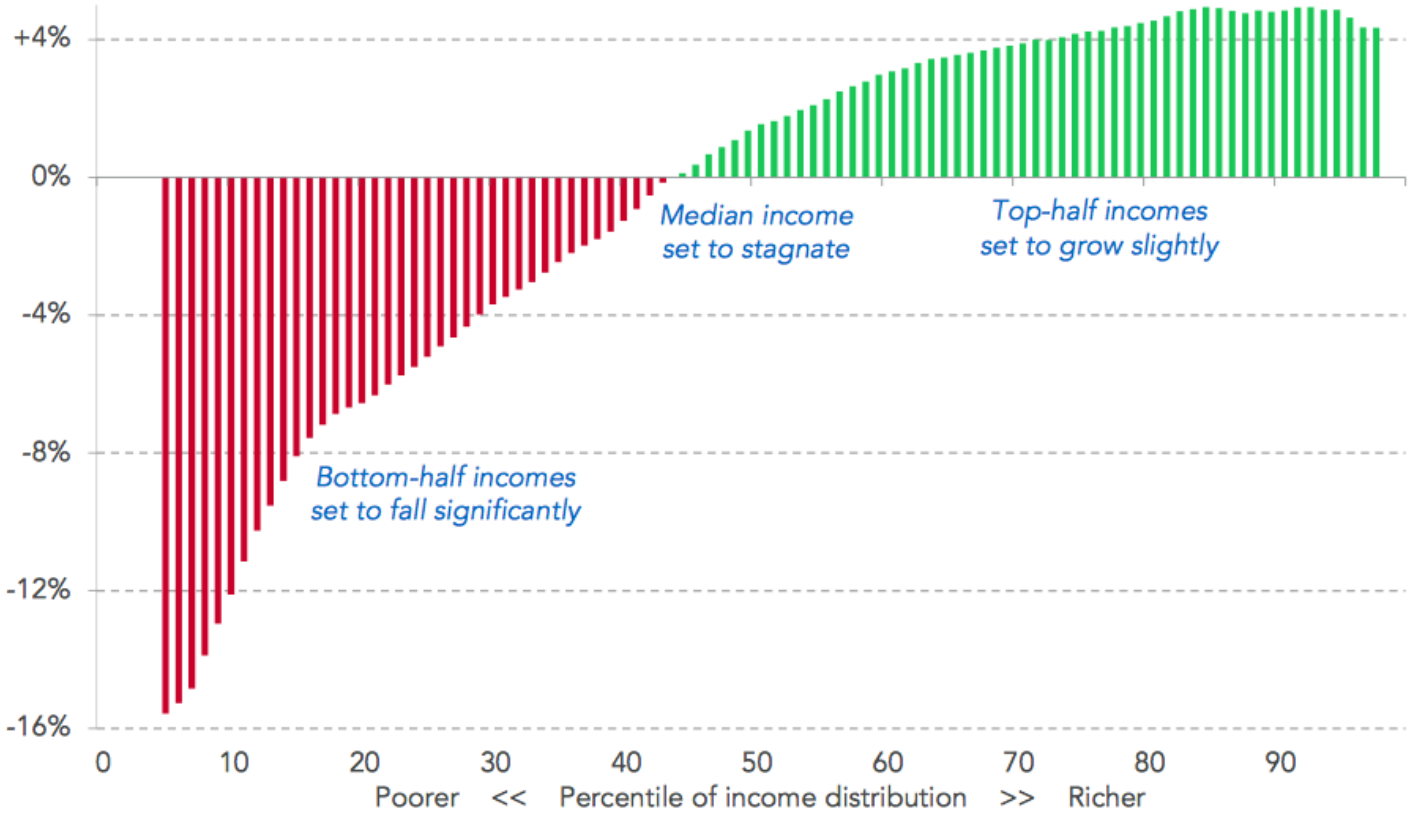
Figure 3: Forecast income growth from poorest to richest (working-age, after housing costs)

Real equivalised household disposable after-housing income growth, 2016-17 to 2020-21, working-age



Source: Resolution Foundation projection using OBR economic forecasts, planned tax and benefit policies and other assumptions.

Notes: Total change over four years. Smoothed change in average income of percentile group. Inflation-adjusted using CPI after housing costs.
